Waste Recovery - Value Proposition

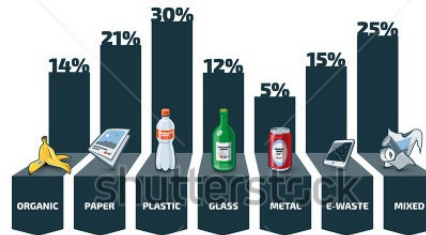

Disrupt the existing waste disposal infrastructure by:

Eliminating Need for
Sorting

*Reduces
Collection Costs*

Maximize Quality and
Value of Waste Stream

*Proprietary
Fractionation*

Significantly Reduce
Greenhouse Gases

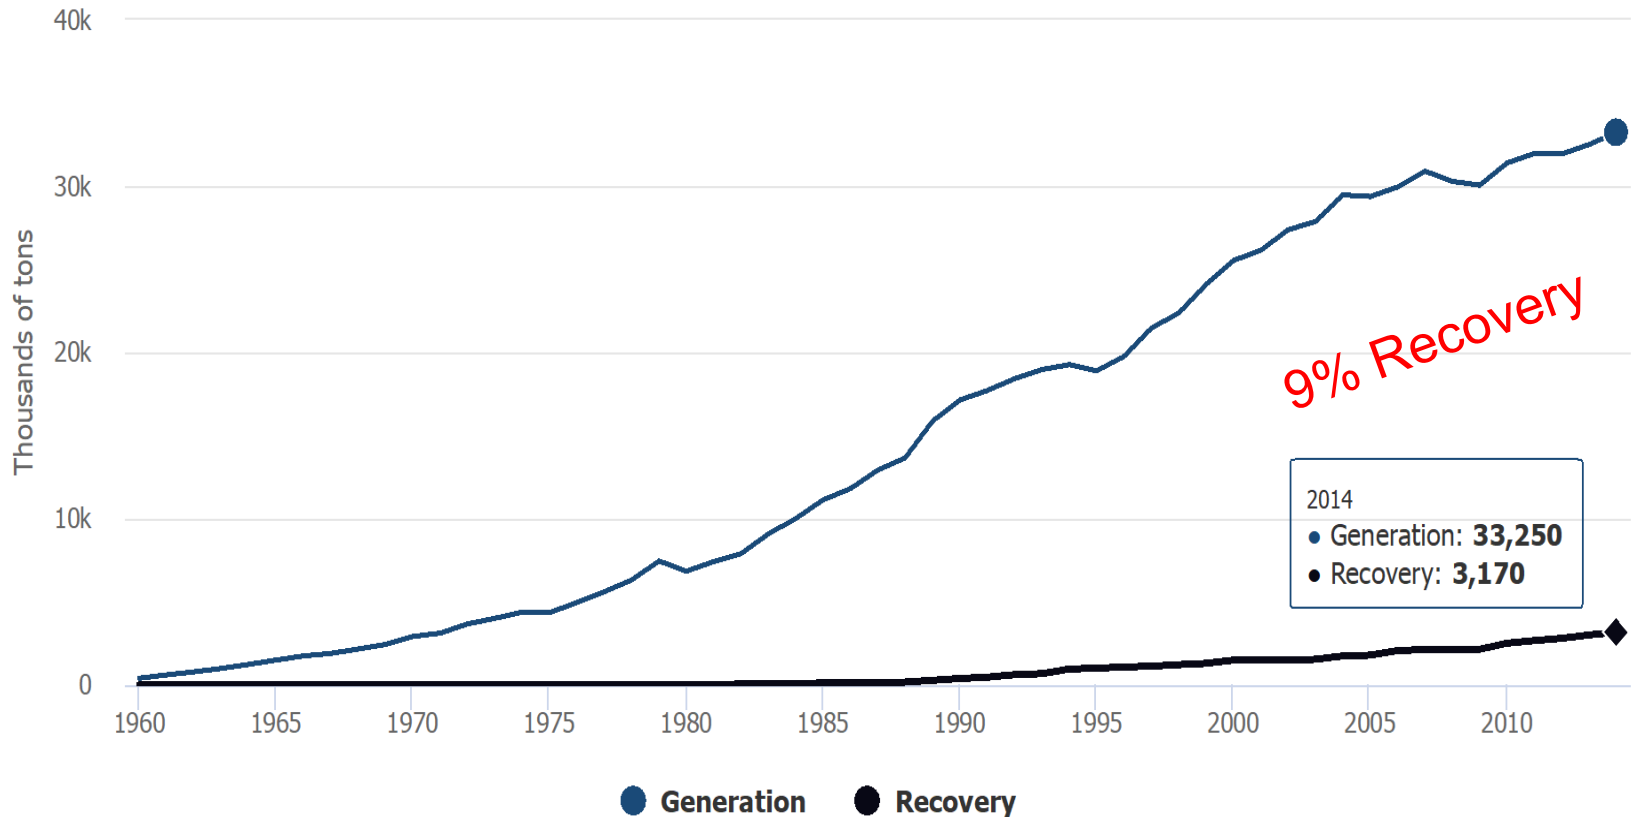

*Minimal Air Emissions
& Water Impact*

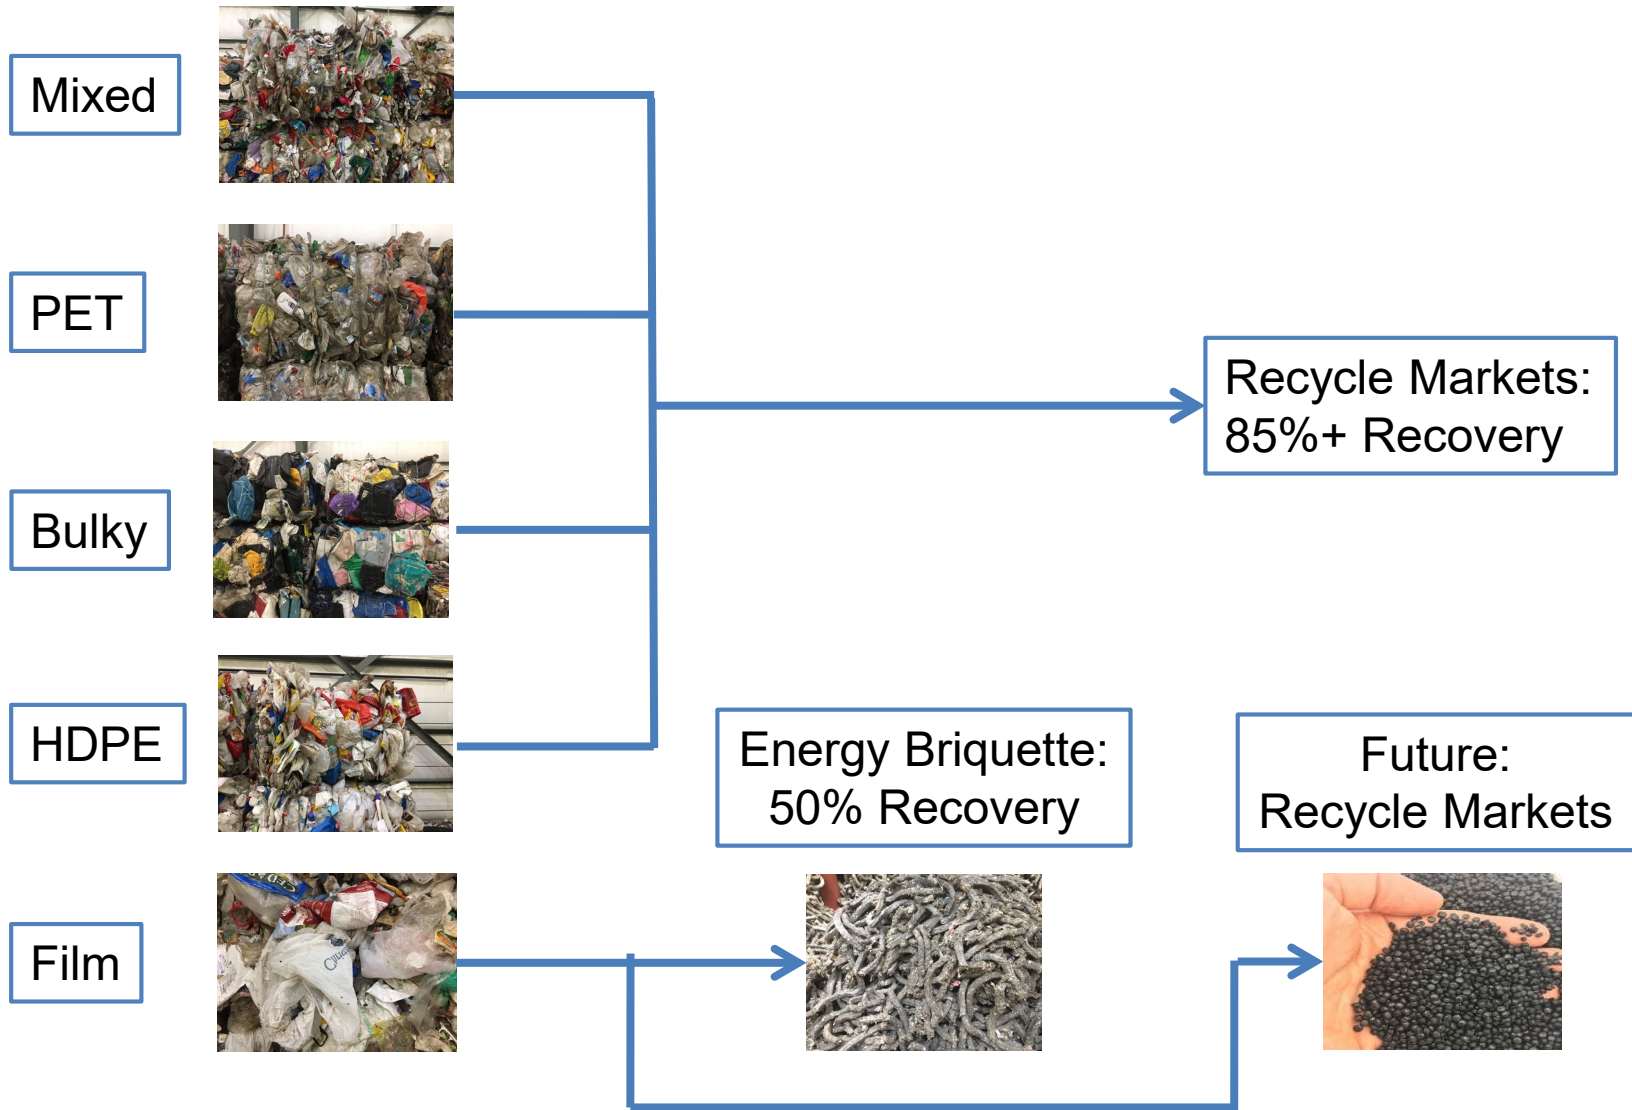

Plastic Recycling – A Global Issue

U.S. Plastics Generation & Recovery

The amount of paper generated and recovered in the U.S. by year, according to EPA figures.

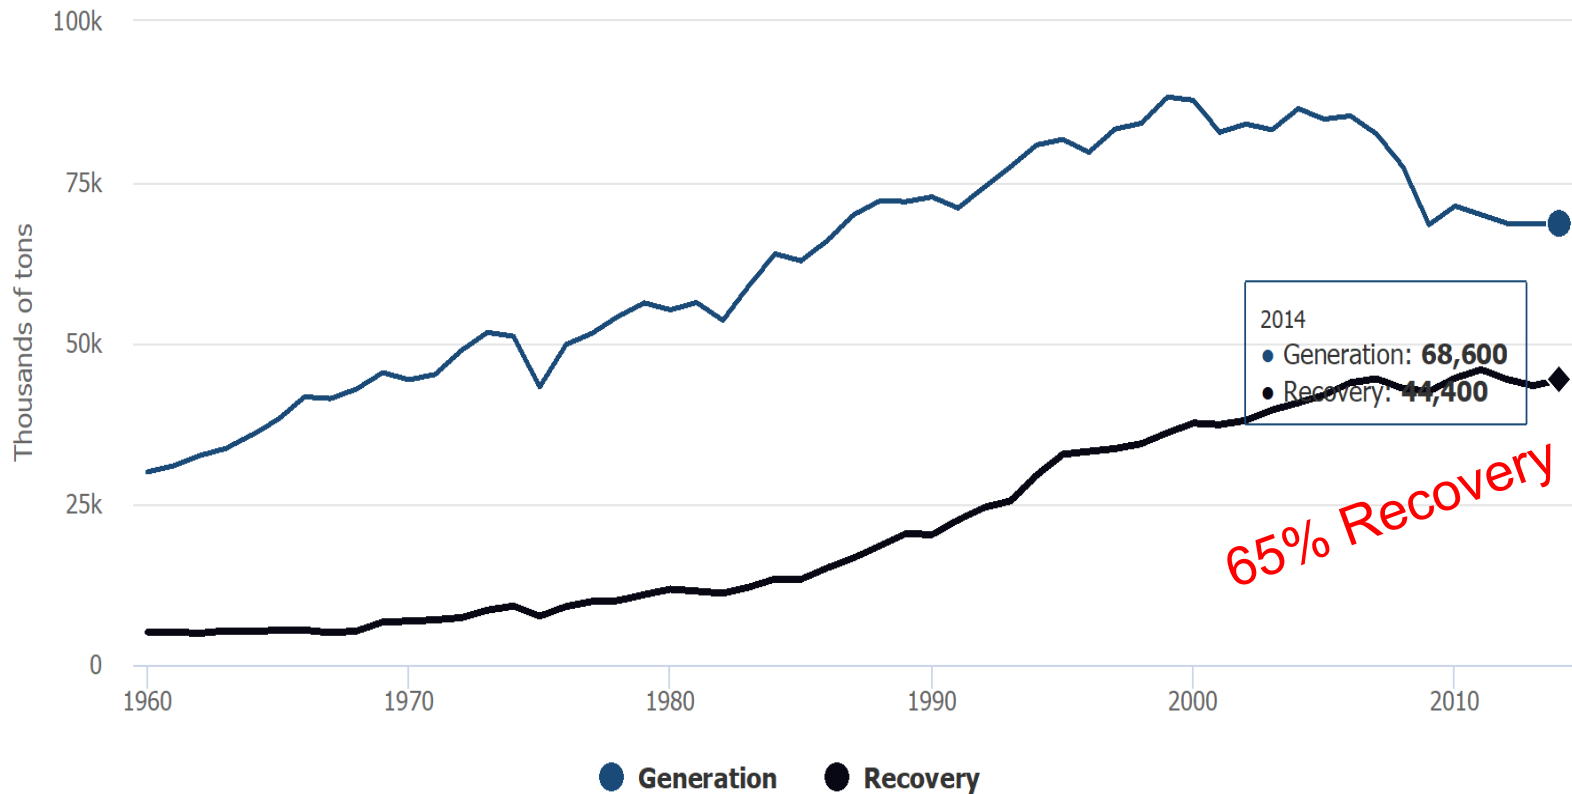

Plastics Recovery/Upgrading at Coastal Resources

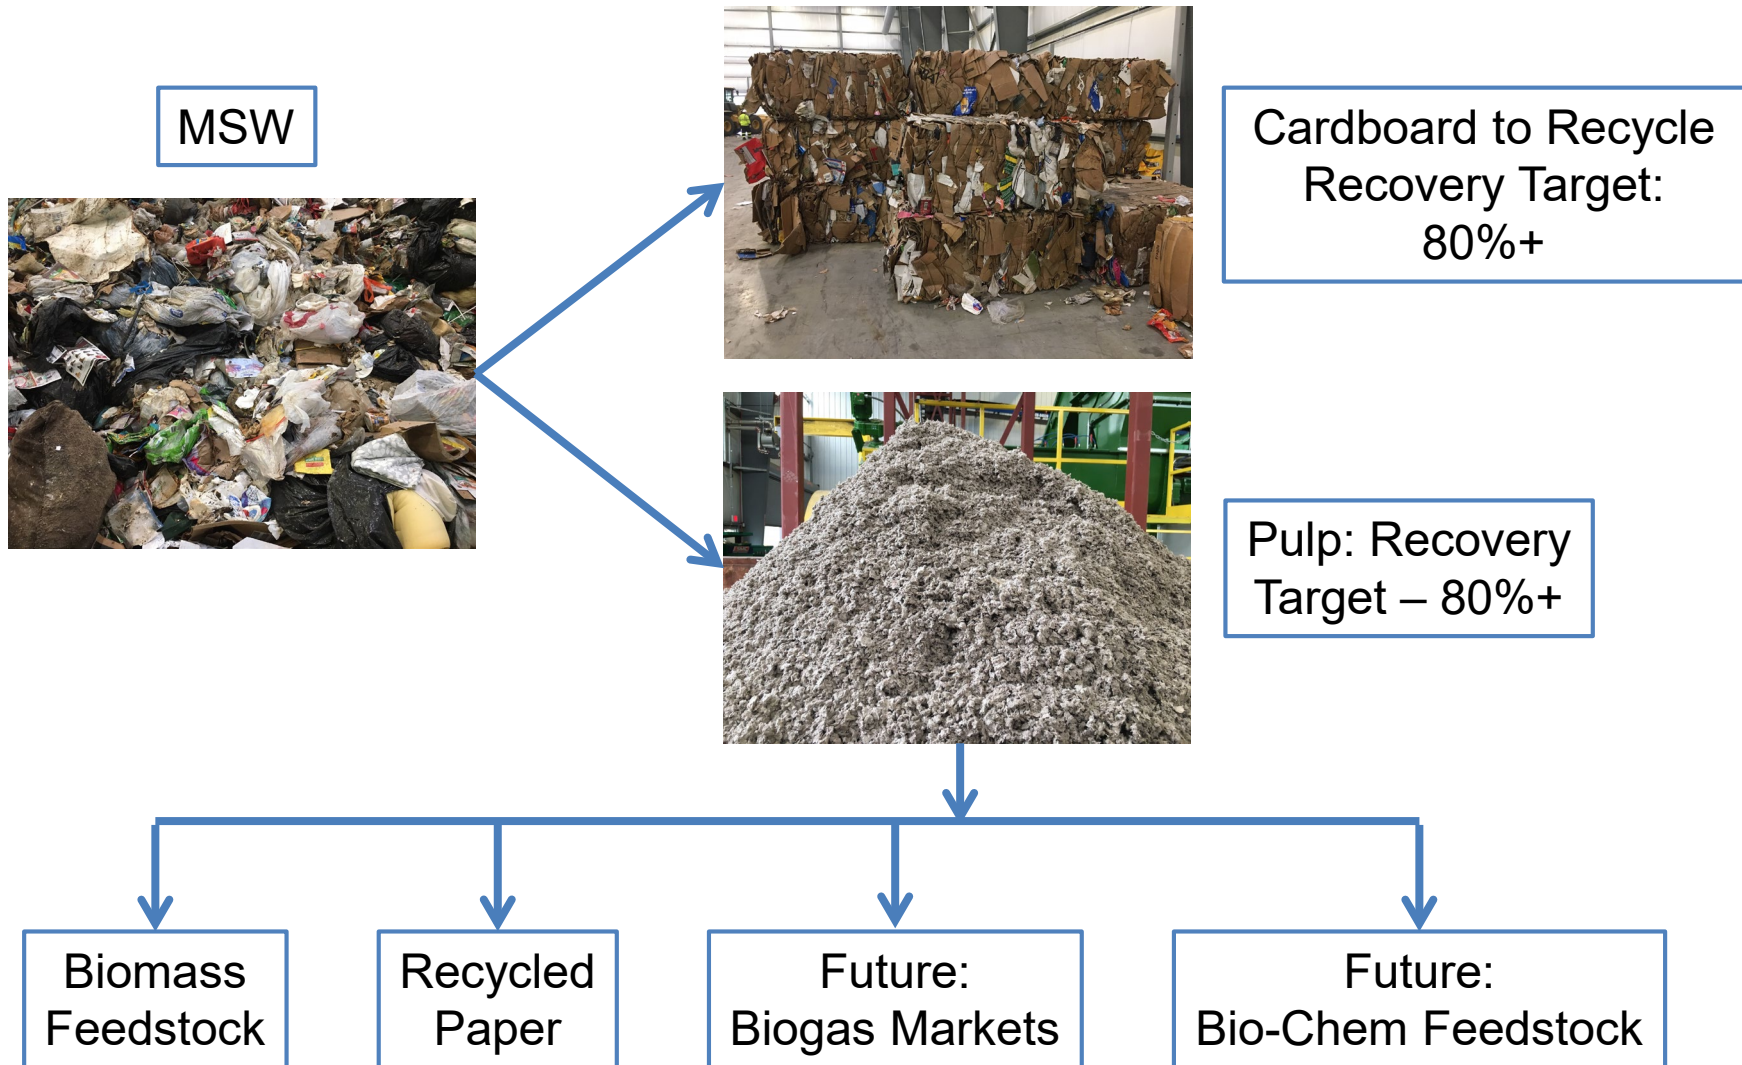

U.S. Paper Recycling

U.S. Paper Generation & Recovery

The amount of paper generated and recovered in the U.S. by year, according to EPA figures.

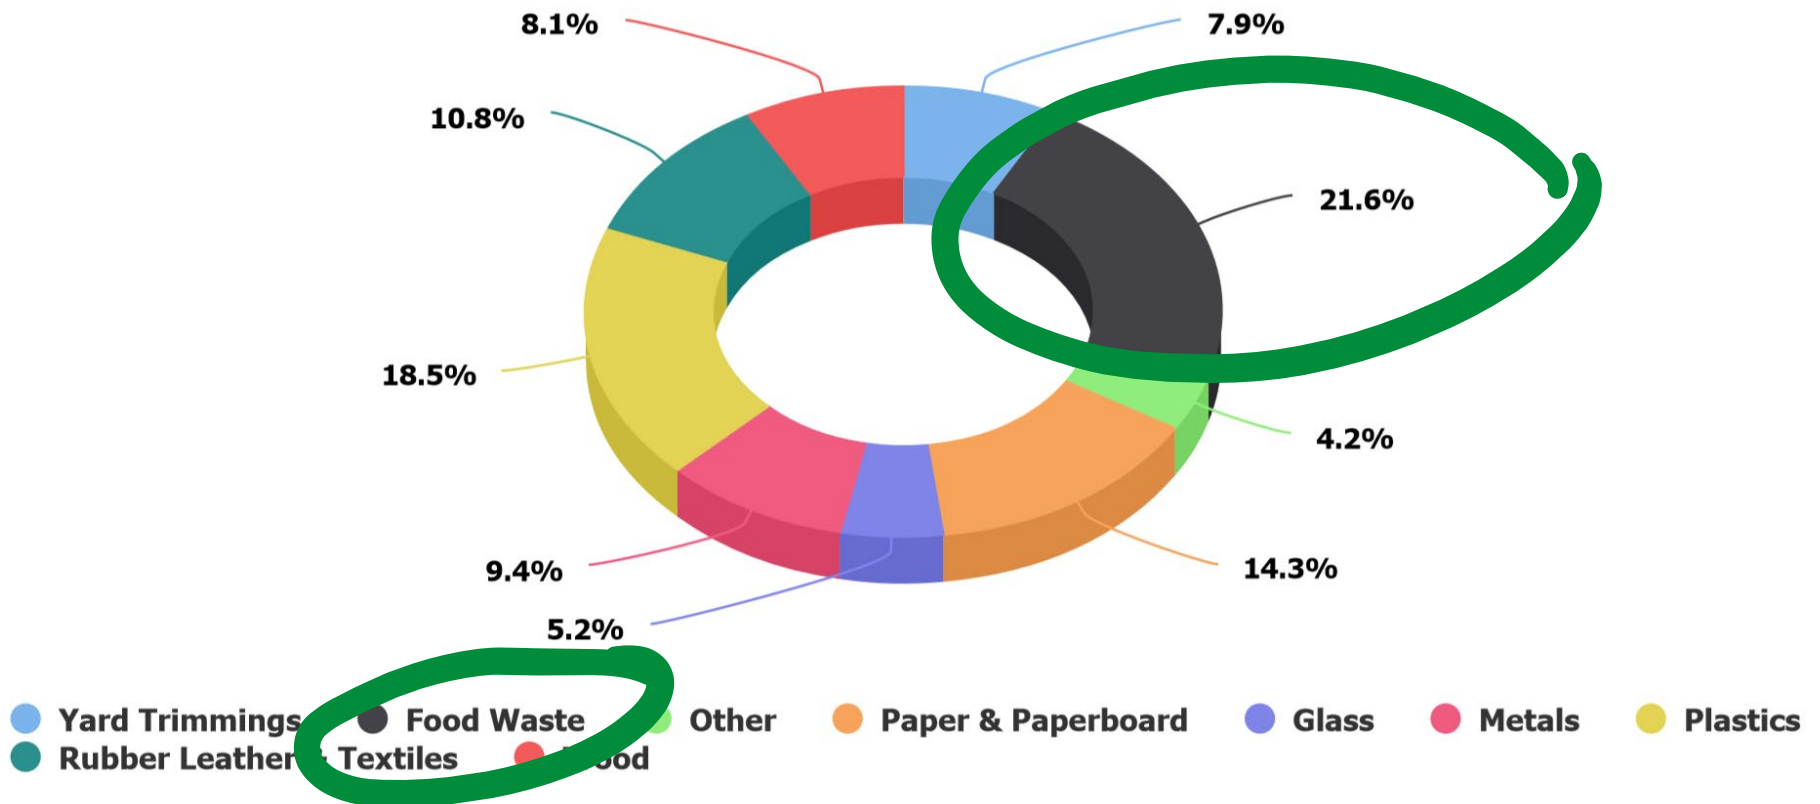

Paper Recycling at Coastal Resources

Food Content in MSW

MSW Discards by Material

Of a total of 136 million tons. (Source: EPA)

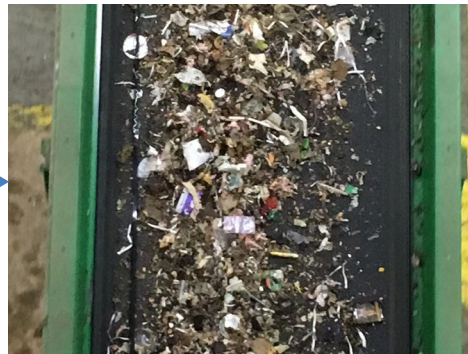

Food Recovery to Biogas at Coastal Resources

MSW

Fines <2" Material

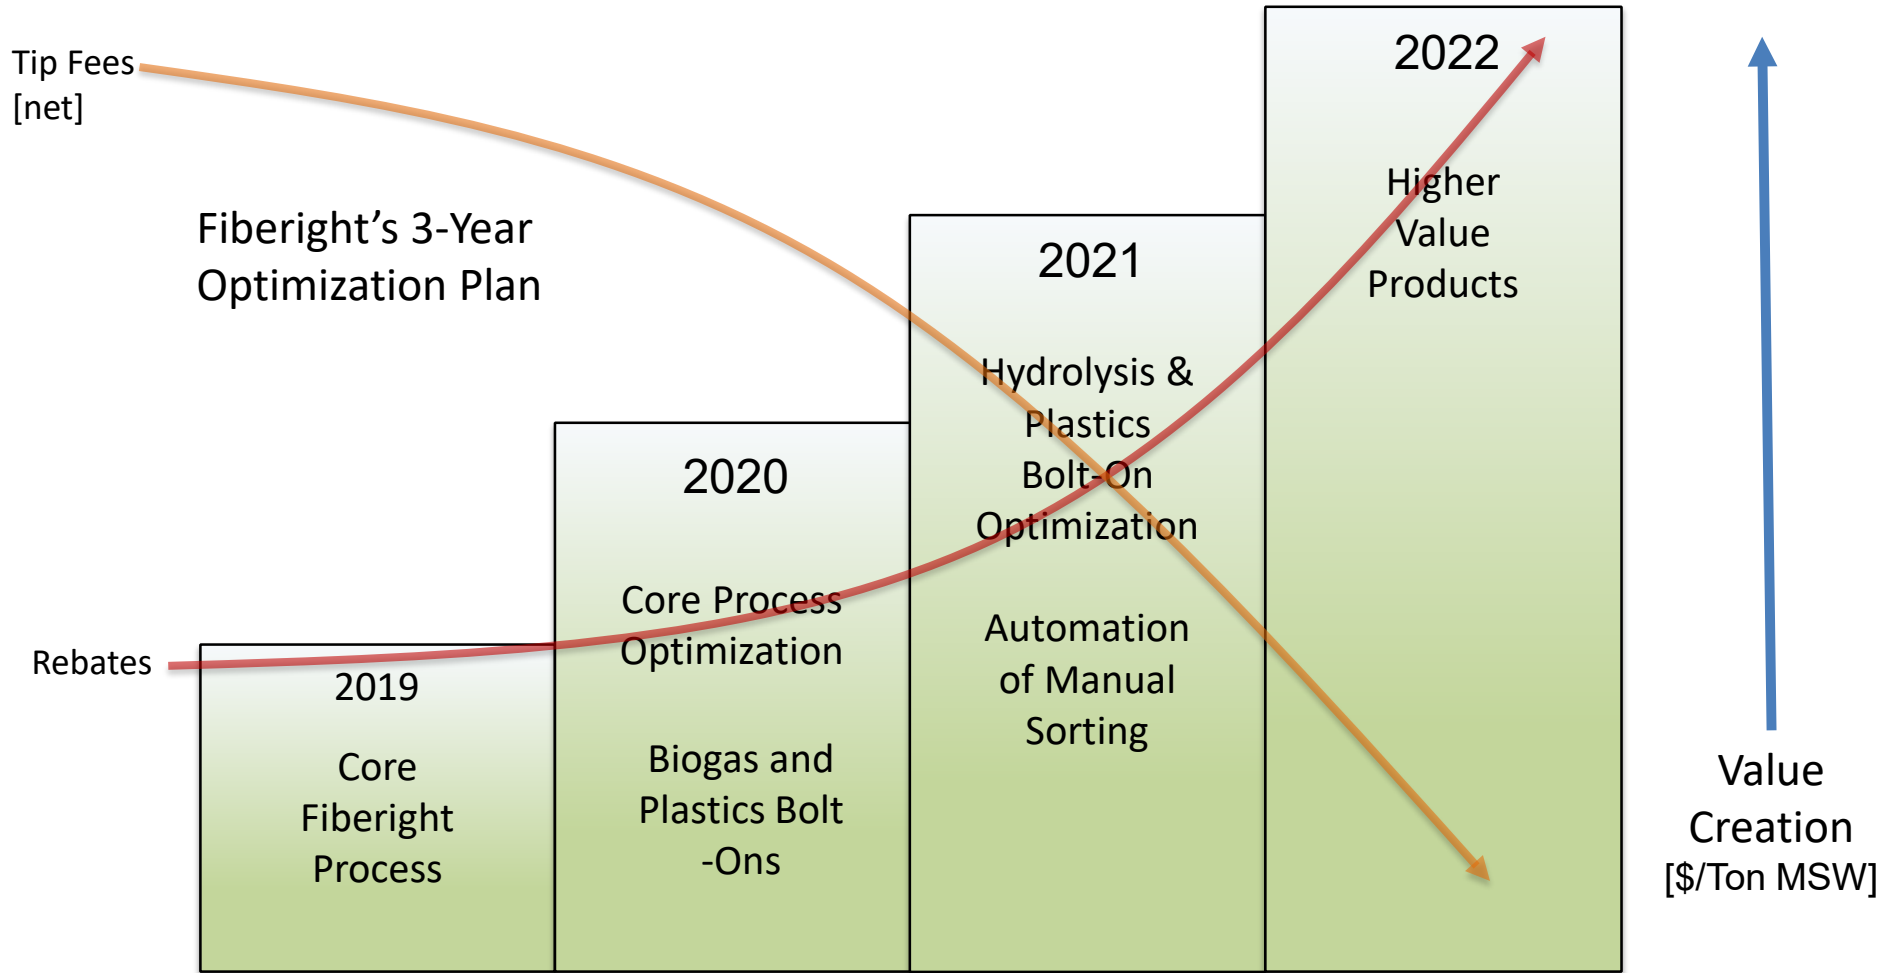

Biogas
Production

Improved Separation and Yield
