

Public Notice: MRC Special Meeting Monday, May 22, 2023

May 18, 2023

Dear Members,

It was an exciting time to be at the Hampden facility last week! As you may recall, Innovative Resource Recovery (Innovative) recently visited the plant, and we are pleased to report that they were thoroughly impressed with our equipment. Innovative brought in equipment manufacturers and restarted the front end known as the Material Recovery Facility (MRF).

A video is available on our YouTube Channel if you're interested in seeing it. It is very short, but it was also exciting to see the first pieces of equipment start turning where everything begins on the tip floor, and the process starts. Like you, we are anxiously waiting for when the time when it is once again processing and helping to recycle MSW!

[Watch MRF Testing](#)

During the due diligence period, we have been working with Innovative to ensure that all aspects of the partnership are thoroughly examined. We are pleased to report that progress is being made. We have scheduled a Special Board Meeting for May 22, which will be held in executive session mostly for the board to review and speak to the sale documents and agreements as we get nearer to a closing date.

Thank you for your ongoing support, and we will continue to keep you updated on any developments.

**PUBLIC NOTICE
NOTICE OF PUBLIC MEETING
MUNICIPAL REVIEW COMMITTEE, INC. (MRC)
SPECIAL BOARD MEETING**
